"CURRENT ENVIRONMENTAL PROBLEMS" SEMINAR  
TO BE HELD WEEKLY AT UM DURING WINTER QUARTER

MISSOULA--

A seminar course entitled "Current Environmental Problems" will be held weekly at the University of Montana in Missoula beginning January 10, according to Dr. Meyer Chessin, UM professor of botany and seminar coordinator.

The lecture series, begun several years ago and sponsored by the UM Department of Botany, will meet Fridays at noon in room 215 of the UM Women's Center. The public is invited to attend the sessions without charge.

The following seminar schedule is subject to change:

Jan. 10 -- Arthur Kussman, State Department of Health and Environmental Sciences, Helena,  
"Solid Waste Management in Montana."

Jan. 17 -- Gail Owen, environmental researcher, Missoula, "Facts and Opinions on the  
Hoerner Waldorf Expansion."

Jan. 24 -- Sharon Solomon, environmental coordinator, State Department of Lands and Natural  
Resources, Helena, "A Critique of the Montana Environmental Policy Act."

Jan. 31 -- Dr. Malinda Schaill, UM assistant professor of economics, "Economic Implications  
of the Proposed Colstrip Power Plants, Numbers 3 and 4."

Feb. 7 -- Dr. W. Leslie Pengelly, UM forestry professor and member of the Montana Fish and  
Game Department, "Montana Fish and Game Department's Stake in the Environment."  
Sciences and Disorders,

Feb. 14 -- Dr. Robert B. Chaney, associate professor of Communication/ "Prospects for  
Reducing Noise Pollution."

Feb. 21 -- Charles E. Brandes, land use analyst of Montana Environmental Quality Council,  
Helena, "Land Use Planning in Montana."

"CURRENT ENVIRONMENTAL PROBLEMS" SEMINAR -- page 2

Feb. 28 -- Duane Johnson, labor leader and state legislator, Missoula, "The Environment and the Worker -- A National Dilemma."

March 14 -- Dr. John A. Miles, UM assistant professor of religious studies, "Religion, Science and the Environment."

Additional presentations will be selected from topics including: "Food and Human Survival"; "The Future of Energy Supplies"; "Environmental Implications of Military Strategy and Technology"; and "Recent Threats to the Integrity of the Stratospheric Ozone Layer."
